

- Royal R8 collets are now available in both economy and premium grades.
- 0.0005" TIR guaranteed for both grades.
- The drawbar threads on Royal premium grade R8 collets are machined into the collet body, making them much stronger than two-piece collets and eliminating the risk of plug separation.
- With ultra-tight manufacturing tolerances, outstanding surface finishes, and great prices, Royal Premium Grade R8 Collets are quite possibly the best R8 collets you will ever use.
